

PRESS RELEASE | 2025-03-28

JM starting production of housing in Huvudsta, Solna

JM has started the production of the project Utblicken, consisting of 86 tenant-owned apartments in the new Huvudsta Strandpark area.

Utblicken is part of a larger block and consists of a slatted house of varying heights next to Bällstaviken in a lush part of Solna. Sales are in progress and occupancy is expected to start in the third quarter of 2026, with estimated completion at the turn of the year 2026/2027.

This is the second housing start in the new Huvudsta Strandpark area where JM intends to build a total of approximately 480 residential units spread over four blocks and with commercial premises.

– We are very excited that we are now starting production of Utblicken, which is located in an attractive residential area close to communications, workplaces, services and recreation, says Malin Lindskog, Regional Manager North, JM Bostad Stockholm.

Katarina Rimmerfeldt, Head of Communications JM Group, +46 (0)73 432 61 20, press@jm.se

JM is one of the leading developers of housing and residential areas in the Nordic region. Operations focus on new production of homes in attractive locations, with emphasis on expanding metropolitan areas and university towns in Sweden, Norway and Finland. We are also involved in project development of commercial premises and contract work, primarily in the Greater Stockholm area. JM should promote long-term sustainability work in all of its operations. Annual sales total approximately SEK 13 billion and the company has about 2,000 employees. JM is a public limited company listed on NASDAQ Stockholm, in the Large Cap segment. For more information www.jm.se/en
