

PRESS RELEASE | 2025-03-31

JM starting production of housing in Gothenburg

JM has started the production of 67 residential units in the Eriksberg district in central Gothenburg.

The production of the two apartment buildings, each with seven floors, has begun in the first quarter of 2025 and the sale of the tenant-owned apartments is ongoing. The apartments will be in a prime location on Hisingen with good communications and proximity to the Göta Älv. Completion is planned for the first quarter of 2027.

The residential units are JM's first within the Säterigatan detailed plan, where a total of approximately 1,100 residential units, a new preschool and business premises are planned, where JM will develop a total of approximately 350 residential units.

– We look forward to continuing to develop new housing in Eriksberg where JM has completed many fine projects over the years, says Henrik Orrsjö, Regional Manager West, JM Residential Sweden.

Katarina Rimmerfeldt, Head of Communications JM Group, +46 (0)73 432 61 20, press@jm.se

JM is one of the leading developers of housing and residential areas in the Nordic region. Operations focus on new production of homes in attractive locations, with emphasis on expanding metropolitan areas and university towns in Sweden, Norway and Finland. We are also involved in project development of commercial premises and contract work, primarily in the Greater Stockholm area. JM should promote long-term sustainability work in all of its operations. Annual sales total approximately SEK 13 billion and the company has about 2,000 employees. JM is a public limited company listed on NASDAQ Stockholm, in the Large Cap segment. For more information www.jm.se/en
