

PRESS RELEASE | 2025-06-19

JM starting production of freehold apartments in Brunnshög, Lund

JM starts the production of 79 residential units in the Brunnshög district of Lund.

The production of the residential units in Project Y will begin in the second quarter of 2025 and sales of the homes, which consist of freehold apartments, are underway. Occupancy is planned for the first quarter of 2027. The housing start is reported within the JM Residential Sweden business segment in the second quarter of 2025.

The residential units are the first phase in a new area where JM will develop a total of approximately 112 units, with proximity to lush parks and the new tram line that reaches central Lund within 15 minutes.

– It is particularly pleasing that through the start of production of Project Y in Brunnshög, JM can now also offer freehold apartments in Lund, moreover in a district with a focus on research and development with an international touch, says Lau Borch, Regional Manager South, JM Residential Sweden.

JM is one of the leading developers of housing and residential areas in the Nordic region. Operations focus on new production of homes in attractive locations, with emphasis on expanding metropolitan areas and university towns in Sweden, Norway and Finland. We are also involved in project development of commercial premises and contract work, primarily in the Greater Stockholm area. JM should promote long-term sustainability work in all of its operations. Annual sales total approximately SEK 12 billion and the company has about 1,900 employees. JM is a public limited company listed on NASDAQ Stockholm, in the Large Cap segment. For more information www.jm.se/en
